

Endurance Ride Information Center(ERIC)

When I started to manage the Big South Fork Endurance Ride, the previous managers (Karen and Tommy Isaacs) handed me a spreadsheet, which contained all the people who had attended the ride over the last several years. They also were kind enough to give me a spreadsheet with the budget / actual expenses for the last few years. As far as I know, they did not have anything “automated” which could be used to actually track the entries of the ride and produce a usable set of results. I went to AERC and downloaded the EasyCare application, and tried to go through it, but I found it a little awkward to use. No problem, I’ll just tweak it a little. Nothing doing, it was written in FoxPro (I think) and other than identifying the database elements, I could not make any headway. I ask about having the changes made, “Sure, but you will have to pay for them”. I, having worked with databases, as a developer, data modeler and system designer for most of my IT career, should \$PAY\$ someone to make a simple change to a database program? Never! Bottom line, I thought this would be a fun way to spend a few afternoons. HA!!!

This is the ~~fourth~~ ~~FIFTH~~ ~~SIXTH~~ (I quit counting!) year of my little project, and it is still not done. Now admittedly, I will only pick it up as time gets near for the BSF ride, and do a little tweak here and a little tweak there, working with a database application (M\$Access) that I know nothing about, and then as soon as my results are filed with the sanctioning bodies, set the application away, until next year. So headway has been slow, and usually because of a major problem with the existing system. I still have a ways to go. I have been working with Mike Maul and Russ at AERC to make it easier for RM’s to obtain and maintain an accurate set of current AERC members and horses. This has now been accomplished. AERC publishes an update of the AERC Membership / Horses monthly, and this application uses it to update the internal database.

Now, for how the system works. I learned very early in my IT career that the best place to find and correct mistakes is when they are initially made. So, this system attempts to use a current list of AERC Members and AERC Horses. If you are creating an entry and you enter the rider’s AERC number **THAT** is the time to find out if they are current with their dues, and that the number matches the name. *NOT* when the ride is complete, everyone has gone home, and you are up at mid-night trying to enter the ride results into AERC. The same goes for the horse. The second area that I have had many problems with is tracking the adding and scratching on riders and horses. All that paper and confusion needed to be simplified and organized. The last area that needed to be conquered was the reporting of results and awards. Usually by the third day of the BSF ride, I am way too tired to read hand writing, so nice, big type was a must!

What you are receiving is a modified copy of the application – I am calling it Version 1, of what I use for the rides that I have managed. It has also been used for The AHA and AERC National Championship events. I have made many changes based on what I knew I wanted the system to do so that I might have at least something polished enough for others to try. Please look this over, “Kick the tires” and make suggestions. Let me know if you find problems -- just laugh quietly. Over the next few pages I will try to go screen by screen and explain what each panel, does and what is expected. When you click on the ERIC ICON you should get the following screen:

This is known as the Main Menu screen. Every basic task of the program starts here. Each time you start the application, you will need to select the appropriate **Event Name** that you wish to work with. Starting in the **Setup / One Time Processes** column the user will set up the basis for the Event, and then the information needed to manage each Ride within the Event. The column titled **Process Entries** is used to manage the entries and record the results of the Rides. The **Reports** column contains a collection of reports that will assist with timers, results, and some of the financial items. When the Event is complete, the user will return to the **Setup / One Time Processes** column and create and send the Results to the sanctioning organizations.

Pressing the **EXIT** button will exit you from the application.

Below are the individual steps needed to setup and process a ride. Just a note, any item whose label is **RED** should be considered “mandatory” and an item whose label is **BLACK** is “probably” optional information.

Step 1: Describe the Event

Events are the term we use to describe the overall “ride”. Rides are defined as a “Day – Distance”. For example, the Event is the Big South Fork Pioneer Endurance Ride. It consists of a Thursday 30 Mile Ride, a Thursday 50 Mile Ride, a Friday 30 Mile Ride --- you get the point. Some Events will only have one ride, but others, will have many rides. Either way you need to define an Event first then the Ride(s) that make up that Event. From the Main Menu Screen, press the **Create / Modify Events** button.

PREVIOUS NEXT NEW DELETE REFRESH EXIT

New Record

When you first enter this screen, it is ready for a **NEW** Event. If you are modifying an existing Event, press the **REFRESH** button to query all the Events, and then use the **PREVIOUS** or **NEXT** buttons on the bottom of the screen. The most important part is to supply a "unique" name to the Event. I use the Year in the name of the Event otherwise it is easily confused with last year's Event. You can fill in the location / address fields, but they are not currently used by the application.

The **Checklist** is a list of items that are attached to every competitor's entry. I use it as a reminder of all the extraneous paper work items that are required by Sanctioning bodies or Ride Management that some of the competitors send in with their entries, some bring with them and others just ignore the request. I usually ask for "Proof of Negative Coggins", AERC Membership Cards, and AHA Competition Cards. Items you place in the "Checklist" box will show up on the entry screen, the Entry Confirmation Report, and the Confirmation eMAIL.

Starting with Version 1.7.0, when you press the **DELETE** button, the process will delete not only the Event record, but all records (Results, Entries, Competitors, etc.) associated with the Event. Now you can get rid of your test Events and the Events that come with the application.

You only have to come to this screen once. After you have defined the Event, you will select that Event when you enter the application on the Main Menu screen.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

Step 2: Define Fees

Fees are anything that you wish to track that have a monetary value. From the Main Menu Screen, press the **Create / Modify Fees** button.

Endurance Ride Information Center (ERIC)
2008 Big South Fork Pioneer Endurance Ride

FEE	FEE AMOUNT	OPTIONAL
30 Mile Entry Fee	\$65.00	<input type="checkbox"/>
50 Mile Entry Fee	\$85.00	<input type="checkbox"/>
100 Mile Entry Fee	\$145.00	<input type="checkbox"/>
30 Mile JR Entry Fee	\$45.00	<input type="checkbox"/>
50 Mile JR Entry Fee	\$45.00	<input type="checkbox"/>
100 Mile JR Entry Fee	\$75.00	<input type="checkbox"/>
Fee Waived	\$0.00	<input type="checkbox"/>
Thursday Extra Meal	\$5.00	<input type="checkbox"/>
Friday Extra Meal	\$5.00	<input type="checkbox"/>
Saturday Extra Meal	\$5.00	<input type="checkbox"/>
AERC NonMember Fee	\$15.00	<input type="checkbox"/>
*		<input type="checkbox"/>

PREVIOUS NEXT NEW DELETE EXIT

Record 3 of 11

The **Create / Modify Fees** screen is just a list of all the possible fees that might be charged. I include a fee for all the Ride mileages, both SR and JR Divisions. The “Day Member Fee”, a separate fee for each day’s meal (helps give me a count).

Discounts can be entered as negative numbers. I also have a fee called "Fee Waived" for 0.00. I use this when I waive a fee, it keeps the "books" right. The "optional" checkbox has no meaning at present.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

Step 3: Define Rides

Rides are the individual distances ridden each day. An Event may have only one ride, or it may have several rides. From the Main Menu Screen, press the **Create / Modify Rides** button.

Record 1 of 7

The **Create Modify Rides** screen is where you define each "ride" (Day distance) of your event. Here the important information is the **Ride Name** – make it simple. **Ride Start Date and Ride Start Time** (used in result ride time and BC calculations), date is entered as MM/DD/YYYY and start time is entered in "Military or 24 hour time". **Total Hold Time In Minutes** is used to calculate Ride Time for reports. If you use a range of numbers to designate a ride distance (i.e. 1-99 is LD, 100-199 is 50 mile rides), then enter the beginning number in **ENTRY NUMBER RANGE FROM** and the

ending number in **THROUGH**. If you use a number “prefix” to designate a ride distance (i.e. “L” for LD and blank for 50) then enter the prefix in the **ENTRY NUMBER PREFIX**. These are independent so you can use both. If you do not wish for the system to create numbers for you, enter a “0” in both fields. You always have the option to change the number generated on the entry screen.

For the **RIDE FEES**, you can enter as many as you wish, but you should at least enter one SR, one JR and one Non-Member fee (even if they are the same fee amount). When you create an entry for this ride, the program tries to add the correct entry fees on the Entry Form. If a fee does not have a JR, SR or Day Member indication, then the fee will be applied to all entries. Notice the Fee End Date. It will at some point in the future be used to set a “discount” up to a certain date, and then start a different charge. *Only enter the fees you wish to have added when the entry is created. Fees such as meals and camping can be added on the Competitors Fees / Payments screen.*

Parent Ride is a new concept. If for instance you are holding an AERC 50-mile Open Ride and an FEI ride simultaneously, then the AERC ride is the Parent Ride. You will still need to enter the individuals in both rides on the entry screen, but when you record the results of the Open AERC Ride, the application will give you the chance to “Replicate Results”. This process will take the Results from the Parent Ride, and replicate them to the entries in the “Children” Rides, making the placing adjustments as required. I added this feature after observing an AERC NC, when I realized that there were actually five of six rides going on, but they only needed the results of one ride actually recorded, and the other ride results could be derived from them!

Pressing the **EXIT** button will return you to the **MAIN MENU**.

Step 4: The Entry

The Entries screen is divided into five (5) tabs or sub-steps. The first tab describes the Competitor (or rider).

(NOTE: I find it much easier to use the **CHECK IN** screen as the method to enter new competitors and to locate existing entries).

Record 1 of 139

If your entry gives you an AERC Number, then enter that number in the **AERC Number** field. When you tab out of that field, the members name, and other information including AERC Expiration Date should all fill in. If it doesn't, and you believe them to be an AERC member, simply double click in the AERC Number box and a screen will appear that will allow you to add them to the AERC Members table or perform a search for a correct ID. If the entry is not an AERC member, then skip the **AERC Number** field and simply enter the information for the competitor (Remember to put in the full address because the AERC office needs it later). When you have completed filling in the information on the Competitors tab, select the Entries tab.

NOTE: If the data in the application is old or the member has not renewed, then the AERC EXPIRATION DATE will show in **RED** and the day member fee will be attached to the entry fees. You can either correct the AERC information (as described above) or you can simply change the AERC EXPIRATION DATE on this screen – it will change it FOR THIS EVENT ONLY –

The three **FIND** boxes in the bottom of the screen are to locate an already entered competitor that you need to make changes to. The **NEW** button will give you a blank record to start a new entry on. The **DELETE** button will delete a competitor and all their information, unless the competitor has had results entered for them.

When you have completed the competitor information, then select the **ENTRIES** tab.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

Record 1 of 139

Select the **Ride Name** from the drop down, tab to the **AERC Horse Number**, same as AERC Member, if not in list then Double click and add, if the horse has no AERC number, then just skip it. If this is an AERC horse, then the horse name, breed and registration number will fill in (if available the member has added it to the AERC horse data base). After a Horse Name has been entered, an entry number will appear. If the horse has already been assigned a number (spouse riding the same horse already entered) then that number will appear. If not then the next number in sequence will appear. If you do not like this number you can overtype the number. You can specify ranges and prefixes in the **Create/Modify Rides** screen. When you tab out of the row, then the program will add "fees" based on what you set up in the Ride Fees screen. If the rider is entering more than one ride, just add a second line/row in the entry box. The **SCRATCH** button will remove an entry for a ride. It will also remove any fees that were "automatically" added when the ride was originally entered. There is a "pop-up" screen which reminds you to double check the entry fees screen if you scratch an entry.

The three **FIND** boxes in the bottom of the screen are to locate an already entered competitor that you need to make changes to. The **NEW** button will give you a blank record to start a new entry on. The **DELETE** button will delete a competitor and all their information, unless the competitor has had results entered for them.

When you have completed the entry information, then select the **FEES/PAYMENTS** tab.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

Record 1 of 139

Check it for accuracy and either add or delete fees as needed, notice the **TOTAL** in the upper right hand corner. If you have additional fees to add to this competitor (camping or extra meals for example), select the fee from the **FEES** box and press the **ADD FEE** button, and if you wish to remove a fee, highlight the row and press the **DELETE FEE** button. Now switch to the **PAYMENTS** box. Enter the **AMOUNT PAID** and the check number or the word CASH if they paid in cash in the **CHECK / PAYMENT INFORMATION** field. I usually write the "Entry numbers" on the checks as a further cross reference, and copy all the checks prior to deposit. Note the **TOTAL PAID** and **BALANCE DUE** boxes. If the competitor pays with multiple payments, then just make multiple entries in the payments box. I also try to make notes when multiple competitors pay with a single check. I use the correct amount in the amount paid, but put the real check amount along with the check number and the names of the other competitors in the **CHECK / PAYMENT INFORMATION** box. (NOTE: Sometimes the "Total" fields do not recalculate in a timely manner. When this happens, change (retype) something on one of the Payments and the recalculations should occur.)

Lastly, when I write "Refund" checks, I put them in here as a negative Amount.

The three **FIND** boxes in the bottom of the screen are to locate an already entered competitor that you need to make changes to. The **NEW** button will give you a blank record to start a new entry on. The **DELETE** button will delete a competitor and all their information, unless the competitor has had results entered for them.

When you have completed the fees and payment information, then select the **CHECKLIST** tab.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

PREVIOUS NEXT NEW DELETE EXIT

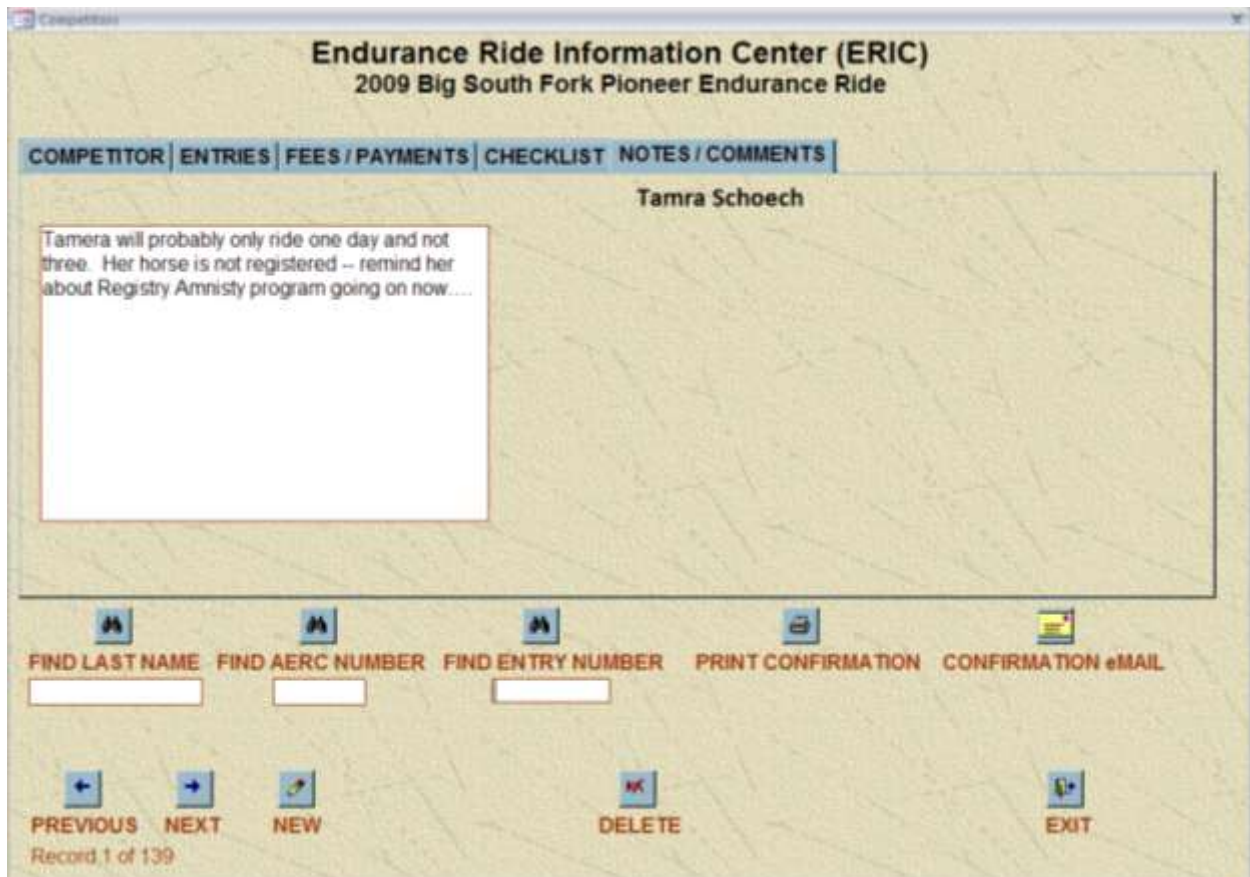

Record 1 of 139

Check the ones they have, and delete any that might not be applicable. The items that do not have a check mark, show up on the confirmation eMAIL and all of them show up on the printed confirmation report.

The three **FIND** boxes in the bottom of the screen are to locate an already entered competitor that you need to make changes to. The **NEW** button will give you a blank record to start a new entry on. The **DELETE** button will delete a competitor and all their information, unless the competitor has had results entered for them.

When you have completed the checklist information, then select the **NOTES / COMMENTS** tab.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

This is a screen where you can write any notes or comments that you wish to track on this person. I have used it for notes about entry changes (helpful later when trying to sort out a messy entry), and reasons for no-shows, and JR's looking for sponsors. The information entered here only displays on the two entry confirmations.

You have now successfully created an entry. You have a couple of optional things you can do. You can print the "Entry Confirmation" sheet after each entry is entered, or mass print them at a later time. The Entry Confirmation contains all the information from the previous five tabs. I put one in the competitor's packet so they can double check their information somewhere besides standing in line. I also re-print them when changes are made, during the ride.

You can also now (assuming that you have M\$Outlook or M\$OutlookExpress loaded on your computer – this may work with other eMAIL packages as well, I just have no way of trying –) you can press the **CONFIRMATION eMAIL** button. This will create a simple eMAIL version of the Entry Confirmation page and give you the option of sending the eMAIL out as is, or modifying it with a personal note.

The three **FIND** boxes in the bottom of the screen are to locate an already entered competitor that you need to make changes to. The **NEW** button will give you a blank record to start a new entry on. The **DELETE** button will delete a competitor and all their information, unless the competitor has had results entered for them.

Pressing the **EXIT** button will return you to the **MAIN MENU**.

Step 5: Check In

At the ride, the process of “picking up their packet”.

The screenshot shows a window titled "CompetitorCheckIn" with the subtitle "Endurance Ride Information Center (ERIC) 2011 Red Barn Run". It displays a table of competitors with columns for name, checked-in status, fees, paid amount, and difference. Navigation buttons are at the bottom.

COMPETITOR	CHECKED IN	FEES	PAID	DIFFERENCE
Ahrens, Adri	<input checked="" type="checkbox"/>	\$115.00	\$115.00	\$0.00
Anderson, Flinn	<input checked="" type="checkbox"/>	\$210.00	\$210.00	\$0.00
Anderson, Suzie	<input checked="" type="checkbox"/>	\$115.00	\$210.00	\$95.00
Armstrong, Bill	<input checked="" type="checkbox"/>	\$95.00	\$95.00	\$0.00

Barbosa, Hernan	<input checked="" type="checkbox"/>	\$95.00	\$95.00	\$0.00
Bates, Garrie	<input checked="" type="checkbox"/>	\$200.00	\$200.00	\$0.00
Beall, Cass	<input checked="" type="checkbox"/>	\$30.00	\$30.00	\$0.00
Beall, Landon	<input checked="" type="checkbox"/>	\$30.00	\$30.00	\$0.00
Bell, Cynthia	<input checked="" type="checkbox"/>	\$105.00	\$105.00	\$0.00
Bellah, Miranda	<input checked="" type="checkbox"/>	\$95.00	\$95.00	\$0.00
Bennett, Matt	<input checked="" type="checkbox"/>	\$190.00	\$190.00	\$0.00
Bockoven, Becky	<input checked="" type="checkbox"/>	\$95.00	\$95.00	\$0.00
Bower, Louise L.	<input checked="" type="checkbox"/>	\$210.00	\$210.00	\$0.00
Bowling, Priscilla	<input checked="" type="checkbox"/>	\$130.00	\$130.00	\$0.00
Brooks, Alice	<input checked="" type="checkbox"/>	\$95.00	\$95.00	\$0.00
Brooks, Dixie	<input checked="" type="checkbox"/>	\$190.00	\$190.00	\$0.00

Navigation buttons: PREVIOUS, NEXT, NEW COMPETITOR, CHECK IN, EXIT. Record 1 of 185.

This screen lists all the competitors alphabetically. When a competitor checks in, find them on the list, by either using the **PREVIOUS / NEXT** buttons, or pressing the **Page Up / Page Down** keys. If there are no changes to be made, highlight the competitor's name and simply press the **CHECK IN** button. If there are changes to be made Double Click the competitor's name and the **ENTRY SCREEN** (described above) for the competitor will come up and you can then make the changes. In this case when you **EXIT** the **ENTRY SCREEN** it will return to this screen. The only place the Checked In data appears is on the Timers Sheets. **This screen also makes an excellent way to find competitors when changes need to made!**

I have added a button at the bottom of this screen, so you can now easily add new competitors. When pressed the **NEW COMPETITOR** button opens the Competitors screen in “new” mode.

Step 6: Recording Results

6a: Endurance Ride Finish Line Results

This is the process of recording Finish Times for the Rides.

The screenshot shows the "Endurance Ride Information Center (ERIC)" for the "2010 Big South Fork Pioneer Endurance Ride". The interface includes a "SELECT RIDE NAME" dropdown set to "Thursday 30 Mile" and a "SORT ORDER" dropdown set to "Order of Entry". The main table lists 10 entries with columns for Entry Number, Competitor, Horse, Completion Time, Ride Time, Completion Code, and Placing. At the bottom, there are navigation buttons: PREVIOUS, NEXT, NEW, DELETE, CALCULATE PLACINGS, REPLICATE RESULTS, and EXIT. The status bar shows "Record 1 of 10".

ENTRY NUMBER	COMPETITOR	HORSE	COMPLETION TIME	RIDE TIME	COMPLETION CODE	PLACING
L65	Mike De Chart	Koweta Pendleton (Dillon)	12 28 00	03:48	Finished	1
L62	Linda Norton	Nautiki Ku (Tiki)	12 29 00	03:49	Finished	2
L22	Melissa A. Hamilton	Haas ()	12 32 00	03:52	Finished	3
L90	Sherry Neidich	Gallant	12 38 00	03:58	Finished	4
L6	Anne Liddell	Blazin Thyme SA (Blaze)	13 00 00	04:20	Finished	5
L37	Lara Worden	KF Leprechaun ()	13 43 00	05:03	Finished	6
L31	Alice C. Farrar	SMS Apache Shadodanz (Cody)	13 49 00	05:09	Finished	7
L63	Jane Lamimore	TLC Kopper Kadin (Kadin)	13 49 01	05:09	Finished	8
L51	Dawson McAllister	Jolly Roger	13 58 00	05:18	Finished	9
L43	Judith A. Clark	Lightning	14 20 00	05:40	Finished	10
L84	Kiersta Persson	Eli			Lame	
L24	Patty B. Gale	Shalorro Marks			Rider Option	
L17	Frank May	Menes Gift			Rider Option	
L5	Ken Cota	Vermillion Fox Fire (Fox Fire)			Rider Option	
L88	Patricia Bass	Mortal Mirage (Mirage)			Lame	
L89	Margaret Carpenter	Buckwheat			Rider Option	
			0 00 00		Finished	

When you first bring this screen up, it is blank. You will need to select the **RIDE NAME** that you wish to enter / view in the drop down in the upper right hand of the screen. The **SORT ORDER** dropdown causes the rows you are entering to be sorted in different orders. Entering results is really quick. Simply enter the **ENTRY NUMBER**, which will then fill out the rider and horse's name and then enter the time the rider crossed the finish line (in Military Time). Ride time is then calculated based on the ride's start time and the total number of hold minutes that you entered when you defined the ride in **Step 2**. (NOTE: IF the start time or the hold times have changed since you created the ride, just go

change them. RIDE TIME is always CALCULATED based on the current values in the Ride.) Select the appropriate **COMPLETION CODE**. To break ties, just change the seconds. They are used to calculate the results placings, but are not tracked by AERC. You can press the **CALCULATE PLACINGS** button at any time, the placings will be calculated based on the information entered.

If this is a “Parent Ride” and you have entered all the results, press the **REPLICATE RESULTS** button to create the results for any “Children Rides” of this Parent. Once you have replicated a set of results, you can make changes to any of the results, and it will only change the result that you made the correction to. This allows you to have a tie in AERC, then go change the Results for AHA to break the tie in the AHA results. If by chance you need to make a massive change, then you can delete all the Children Results, modify the Parent Results and then replicate again.

6b: Endurance Ride Best Condition Results

This is the process allows for a quick entry of BC results with no Math!!!

PREVIOUS NEXT EXIT
Record 1 of 10

In the C:\ERIC\Templates directory there is a M\$Excel Spreadsheet titled **BC Score Sheet**. Have your vet write his scores on that sheet, and also put the rider's weight on the sheet. This form will automatically list the riders who are eligible to stand for BC (after placings have been created for 1-10th place). Fill in the rider's weight, and the Vet scores, the time is already calculated based on the Results that were entered. The weight results get re-calculated as you fill in the individuals. If an eligible individual decides not to stand, just leave their record alone.

If you want to preview the entirety of the BC score you can use the selection below.

The screenshot shows a report for "Endurance Ride Information Center (ERIC) 2009 AHA National Distance Championship". The selected ride name is "AERC Open 100 Mile Tuesday". The report details for entry 213A, rider Meg Sleeper on Syrocco Reveille (Rev), are as follows:

RECOVERY	HYDRATION	LESIONS	SOUNDNESS	QUALITY OF MOVEMENT	FINISH PLACING
8:00	8:00	9:00	5:50	7:00	1
TOTAL VET SCORE					375.00
TOTAL TIME SCORE					200.00
TOTAL WEIGHT SCORE					99.00
TOTAL BC SCORE					674.00

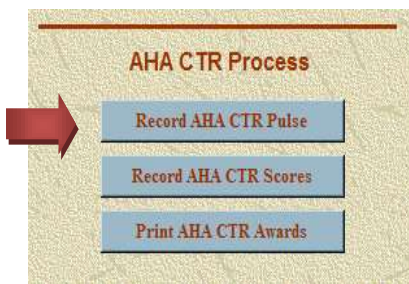

Additional data from the report:

- ENTRY: 213A, Meg Sleeper
- RIDER WEIGHT: 172
- WINNING RIDER: 20:18
- RIDER WEIGHT: 170
- WEIGHT DIFFERENCE / 2: 1

Navigation buttons: PREVIOUS, NEXT, EXIT. Record 1 of 10.

There is a report that you can print when the data has been entered that looks almost exactly like the AERC BC report. It will list the BC scores from low to high, with the winner being the last record printed.

6c: Competitive Trail Ride Pulse Results

This is an easy way of capturing the pulse card data for later tabulation.

When you first bring this screen up, it is blank. You will need to select the **RIDE NAME** that you wish to enter / view and the **OBSERVATION** in the drop down boxes in the upper left hand of the screen. Entering results is really quick. Simply enter the **ENTRY NUMBER**, which will then fill out the rider and horse's name and then enter the **PULSE** from the card. If you wish to enter the **PULSE TAKER's** initials you can. If there was a **RECHECK** then enter the pulse here. If there are any **COMMENTS** then enter them also.

PRINT SCORE SHEET EXIT

The first time you select a Competitor and Observation combination, you will get a pop-up screen that states "Score card observation has been built" prior to seeing this screen. This is to let you know that it has set up a default score for all the entries for this person and this observation. If the score card reads all Zeros, then you can return to the next person. There are tabs across the top of the screen for each section of the score card, except for the last two, they function identically. The **CATEGORY** is already entered, all you have to do is enter the **SCORE** if you wish to enter the **JUDGE**'s initials then you can, and if there is a **COMMENT** you should enter it also. **Enter all scores as positive numbers**; the program does the correct math. The last two tabs are for special situations:

CTR Scores

Endurance Ride Information Center (ERIC) 2009 AHA National Distance Championship

18A Wyant, Brenda Amid Asim Day 2 Post Ride Exam

METABOLICS | TACK AREA | LEGS | SOUNDNESS / LAMENESS | FATIGUE | MANNERS | JUDGES TIE BREAKER | DISQUALIFICATION

CATEGORY	RANKING	JUDGE	COMMENT
▶	-	-	

A ranking of 1 for the top placed horse, a ranking of 2 for the next horse ...

PRINT SCORE SHEET **EXIT**

The **JUDGES TIE BREAKER** tab is used to help break ties. There is a very method listed in the AHA Handbook for breaking ties (only need for Top Five / Top Ten placings), with the last resort being that the Head Judge re-examines the horses and effectively “ranks” them. This is a place to enter that ranking. It is currently only used to sort the results for placings, as there is nowhere on the score card to record this item.

CTR Scores

Endurance Ride Information Center (ERIC) 2009 AHA National Distance Championship

17A Bulcock, Debra Amiri Zambis (Jake) Day 1 Post Ride Exam

METABOLICS | TACK AREA | LEGS | SOUNDNESS / LAMENESS | FATIGUE | MANNERS | JUDGES TIE BREAKER | DISQUALIFICATION

CATEGORY	JUDGE	DISQUALIFICATION REASON
▶	-	Overtime - Completion Only

PRINT SCORE SHEET **EXIT**

The **DISQUALIFICATION** tab is used to show the reason for non-placement. The **DISQUALIFICATION REASON** is a free form field, what is entered here will show up on the printed score card.

Step 7: Exporting Results to AERC/AHA/PNER/OCER/eMAIL

We have four specific exports, one for AERC, one for AHA, one for PNER and one for OCER. If you have special needs for reporting the results of a ride, we should be able to accommodate the export. There is also a mass eMAIL of the results to the participants of the ride.

As you should be aware, AERC has set up a way to upload the results of your ride via the web. First select the ride you wish to export in **Export Ride Name**. Either accept the dataset name in **Export Dataset**, or enter the name you wish to use. Press the **Export AERC Results Spreadsheet** button. This will create the exportable spreadsheet. Now click on the **AERC – Ride Managers Results Page** tag and you will be sent to the AERC web site.

ExportAHAResults

Endurance Ride Information Center (ERIC) 2009 AHA National Distance Championship

Determine which ride you wish to report.
Select a output dataset name.
Press the button.
This will use the AHA Spreadsheet template and create a new Spreadsheet that can be eMAILED to AHA:

AHA RIDE TYPE

Local Endurance Ride
 Regional Endurance Ride
 National Endurance Ride

Local Competitive Trail Ride
 Regional Competitive Trail Ride
 National Competitive Trail Ride

AHA Regional or National Division

Arabian
 Half-Arabian / Anglo-Arabian
 Combined

EXPORT RIDE NAME
AHA Combined CTR Championship

EXPORT TEMPLATE
C:\ERIC\Templates\AHANationalCTRResultsTemplate.xls

EXPORT DATASET
C:\ERIC\Uploads\AHA_00000000_AHA Combined CTR Championship.xls

First select the **AHA RIDE TYPE** and if this is a Regional or National AHA ride, then select the **AHA Regional or National Division** of AHA ride results you are creating. Next select the **EXPORT RIDE NAME** you wish to export. Verify that the correct template has been selected. Accept the export dataset name, or create one of your choosing. Press the **Export AHA Results Spreadsheet** button, and the AHA Results spreadsheet will be created. You can then eMAIL that spreadsheet to AHA.

ExportPNEResults

Endurance Ride Information Center (ERIC) 2009 Big South Fork Pioneer Endurance Ride

Determine which ride you wish to report.
Verify the PNER Export Template and location.
Select a output dataset name.
Press the button.
This will use the PNER Spreadsheet template and create a new Spreadsheet that can be eMAILED to PNER

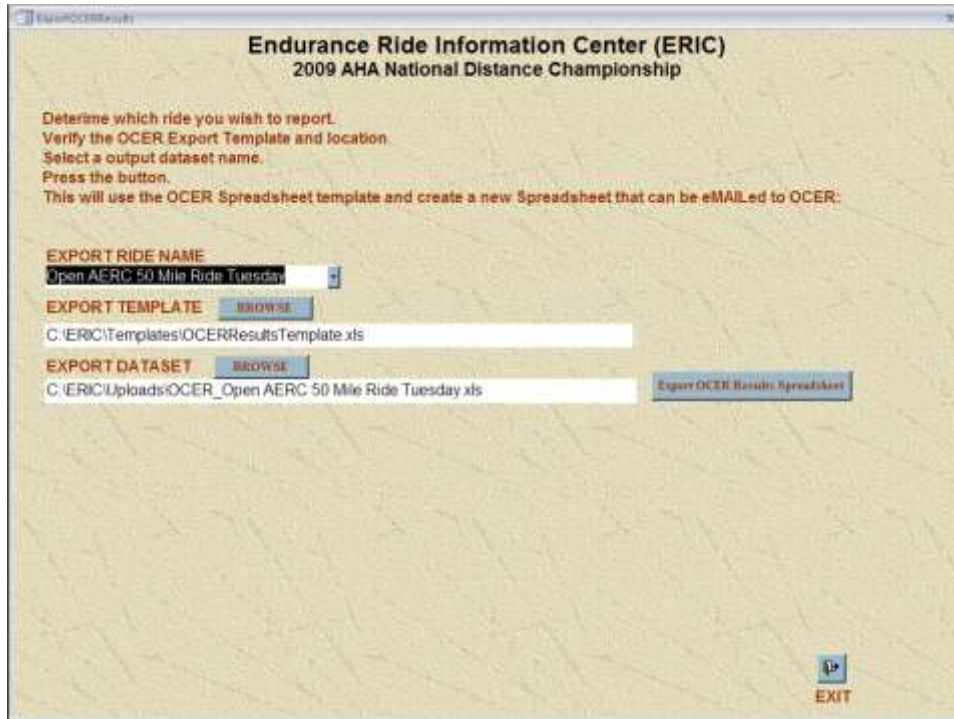

EXPORT RIDE NAME
[Empty Field]

EXPORT TEMPLATE
C:\ERIC\Templates\PNERResultsTemplate.xls

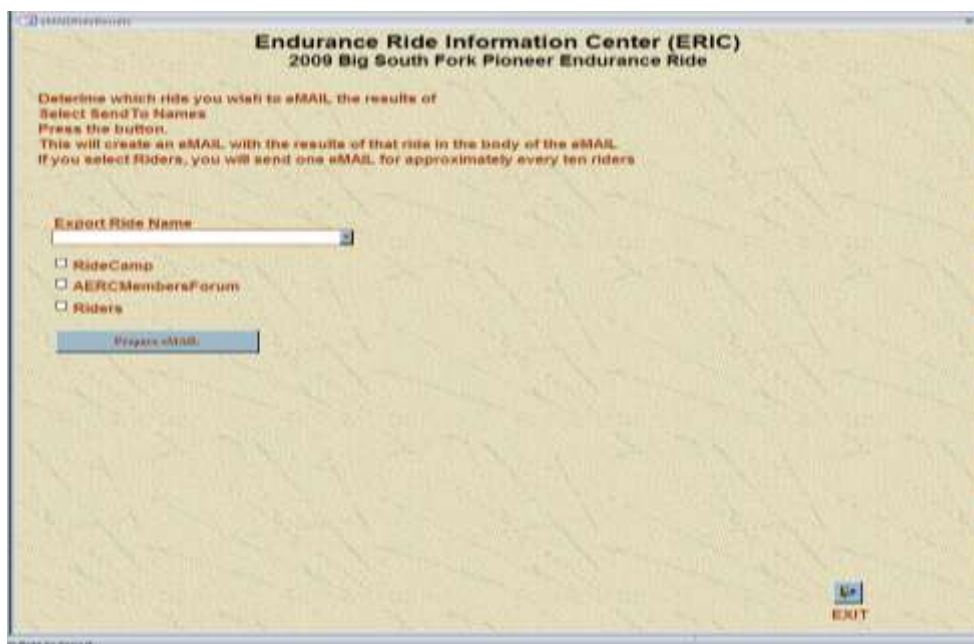

EXPORT DATASET
C:\ERIC\Uploads\PNER_RideName.xls

© 2009 Eric

To export the results to PNER, select the ride you wish to export. Verify the PNER template, and export dataset are correct then press the **Export PNER Results Spreadsheet** button. Once the spreadsheet has been created, you can eMAIL the dataset to the proper eMAIL address.

To export the results to OCER, select the ride you wish to export. Verify the OCER template, and export dataset are correct then press the **Export OCER Results Spreadsheet** button. Once the spreadsheet has been created, you can eMAIL the dataset to the proper eMAIL address.

You can eMAIL the results of a ride to RideCamp, the AERCMembersForum, or to the competitors who participated in the ride. First select the ride you wish to eMAIL. Then select one or more of the destinations. If you select the Riders, we create an eMAIL for ten riders at a time (this gets the eMAIL past most SPAM filters) and automatically sends them. If you select RideCamp and / or AERCMembersForum, the eMAIL is put in "edit" mode so you can add to the eMAIL or the addressees.

The Reports - By Ride

The first section of reports produces data "by ride". **Before selecting any of these reports you must first select a specific ride to report on.**

Sunday, April 03, 2011		Page 1 of 2							

BEST CONDITION report mimics the AERC form. It lists the BC scores for all the eligible BC riders. Those who did not stand *have now been eliminated from the report* with the winner being the right most entry on the last page. I have also added a "HIGH VET SCORE" at the top of the page. At this particular ride, it was a tie...

Multi-Day Awards report is new, and not as good as I would like it to be. When selected from the **MAIN MENU** screen, it will display the following:

Select the rides that you want to include from the list of rides and press the Print button. The report will show all the competitors who rode the same horse in the rides you selected, along with their ride time, both by ride and totaled. There are some problems with this report, and I plan on making it better in the future – use with care.

The **ALPHA LIST OF COMPETITORS** is an alphabetic list of all the competitors, the **NUMERIC LIST OF COMPETITORS** is a listing by entry number of the horse listing under their names, the rides that they have signed up for along with the entry number and horse's name. I give these to the timers so they have an overall "player roster".

PRINT ENTRY LABELS is a holdover from when I printed five line labels with entry info that I put on the rider packet. I no longer do this, so this report has not been used in a few years and might need work. If anyone wants labels, I am more than willing to revive the report.

Notes / Comments:					

The **COMPETITORS CONFIRMATION SHEET** lists the competitor's information, information about the riders entered, fees charged, payments received and checklist items. They can be mass printed (right before you stuff packets, or printed as each entry is entered. I use it as a receipt also, printing a new one when entries are changed and I remember.

The CTR Score card can be produced at anytime during the ride. It should be most helpful to verify score card math errors, or it could be used in place of the multi-form score cards.

Miscellaneous Screens

The **Import AERC Members** process button allows you to load / update any or all of the AERC membership. Mike Maul and I have come up with a protocol for getting updates. If you click on the [Download latest AERC Members update here](#), you will be asked to enter a month. The default is the current month, but if it is close to the first of the month (before the 10th), you may have to use the previous month. Save the download in the "C:\ERIC\AERC Download Base" directory. Then follow the instructions on the screen.

The **Import AERC Horses** uses the same basic logic as the Import AERC Members. An update dataset will be downloaded from the AERC website which contains all new horses and changes to existing horses since a given date. This process will then either update the AERC Horse table or insert a new row.

Create Modify AERC Members serves the same purpose as the **Create Modify AERC Horses**.

Are you an M\$Access programmer? Want to take a shot at a new report / process??? I will be happy to send you the complete DB and code; you just have to share with the rest of us, when you are done.

Have an idea for an improvement? Just send me a note describing what could be improved or added, and we can start looking at it – no promises except that it will not cost you anything.
