I bought I Am Amazing from Bill Wilson. For the entire 10 years that I have ridden him, he has always given me 100%. There were times he gave me even more, and I did not always like it. He loves his job and has overcome many injuries and spells of bad luck. But he is still always ready to go.

Every time my neighbor/vet looks at him, he shakes his head and says, "This horse should not be doing what he does." But "Champ" does not seem to know that. He did not read the book.

It has been a great 10 years.
