

Sanctioned by The American Endurance Ride Conference (AERC)

This ride will be conducted according to AERC Rules

Dr. Gail Conway's last ride and his last vetting job was at the Land Heritage Institute for River Run. It was not a job, but a pleasure for him to vet endurance rides and see all his friends. It is impossible to replace him as a key figure in our endurance world. We are happy to host this ride in his name to keep his memory alive!

Camp: Camp is at the Head Quarters of the Land Heritage Institute. Horse water is available. Camp opens Thursday at 12 Noon. If you need to arrive sooner, or depart later, please contact Ride Management for assistance.

All horses must have a current negative Coggins. All out of state horses must have a health certificate.

Trails: The Land Heritage Institute is a 1,200-acre "living land museum" south of San Antonio. Trails wind through shady oak and pecan groves, open grasslands, and scenic river basins along the Medina River. We will have water troughs on trail, as well as safe river access for horse water. These are barefoot friendly trails. All vet checks will be in camp.
